Mr. G. W. Tuthill, foreman of the book-room of the Tribune Printing Co., speaks in most flattering terms of Dr. Ritter, the optician, at present in our city.
"About two and one-half years ago, while living in Sedalia," said Mr. Tuthill, "we consulted Dr. Ritter regarding our daughter's eyes, as she was suffering of defective vision and headaches brought on by eye-strain. On careful examination Dr. Ritter fitted glasses to her eyes, which she has worn since with results as promised by the doctor, as the trouble with her eyes and head has completely left her. A large number of our friends have had similar experience and all feel most gratefully to Dr. Ritter for benefit received at his hands."

THE IMMEDIATE EFFECT OF THE "ORIGINAL PACKAGE" LIQUOR LAW, JUST PASSED BY CONGRESS, WILL BE TO CLOSE THE SO-CALLED "ORIGINAL PACKAGE" HOUSES IN KANSAS, MISSOURI AND IOWA. IT IS MORE THAN LIKELY THERE WILL BE A LONG CONTEST IN THE COURTS OVER THE RIGHT OF CONGRESS TO DELEGATE THE CONTROL OF INTER-STATE COMMERCE TO THE STATES.
A school teacher says that pupils who have access to newspapers at home when compared to those who have not, are better readers, are better spellers, better grammarians, better in punctuation, and read more understandingly and obtain a practical knowledge of geography in almost half the time it requires others. The newspaper is decidedly an important factor in modern life.
The western corn crib has again asserted itself as being a safe place to store that important grain when prices are low. Last year's corn crop was unprecedented in the history of the country, and many farmers thought it a good thing to make fuel out of it. Others did not think it worth cribbing. Those who entertained a different opinion now realize 100 per cent. from their sagacity. Wheat was low last year. It has depreciated largely in price. Oats will be worth money this year. So it goes. When prices are low, hold; when high, sell. It is a good business principle.—Prairie Farmer.
There will be no split in the republican party on the tariff and reciprocity questions, nobody will be read out of the organization, and a fair degree of harmony will be arrived at. The silver issue in its earlier stages seemed to carry greater possibilities for harm to the party than the tariff does now, yet all the obstacles in the way of agreement were ultimately swept away and common ground for the party to stand upon was obtained. A like happy termination of the strife on the tariff may confidently be looked for before the session ends.—G. D.

THE IMMEDIATE EFFECT OF THE "ORIGINAL PACKAGE" LIQUOR LAW, JUST PASSED BY CONGRESS, WILL BE TO CLOSE THE SO-CALLED "ORIGINAL PACKAGE" HOUSES IN KANSAS, MISSOURI AND IOWA. IT IS MORE THAN LIKELY THERE WILL BE A LONG CONTEST IN THE COURTS OVER THE RIGHT OF CONGRESS TO DELEGATE THE CONTROL OF INTER-STATE COMMERCE TO THE STATES.
A school teacher says that pupils who have access to newspapers at home when compared to those who have not, are better readers, are better spellers, better grammarians, better in punctuation, and read more understandingly and obtain a practical knowledge of geography in almost half the time it requires others. The newspaper is decidedly an important factor in modern life.
The western corn crib has again asserted itself as being a safe place to store that important grain when prices are low. Last year's corn crop was unprecedented in the history of the country, and many farmers thought it a good thing to make fuel out of it. Others did not think it worth cribbing. Those who entertained a different opinion now realize 100 per cent. from their sagacity. Wheat was low last year. It has depreciated largely in price. Oats will be worth money this year. So it goes. When prices are low, hold; when high, sell. It is a good business principle.—Prairie Farmer.
There will be no split in the republican party on the tariff and reciprocity questions, nobody will be read out of the organization, and a fair degree of harmony will be arrived at. The silver issue in its earlier stages seemed to carry greater possibilities for harm to the party than the tariff does now, yet all the obstacles in the way of agreement were ultimately swept away and common ground for the party to stand upon was obtained. A like happy termination of the strife on the tariff may confidently be looked for before the session ends.—G. D.
